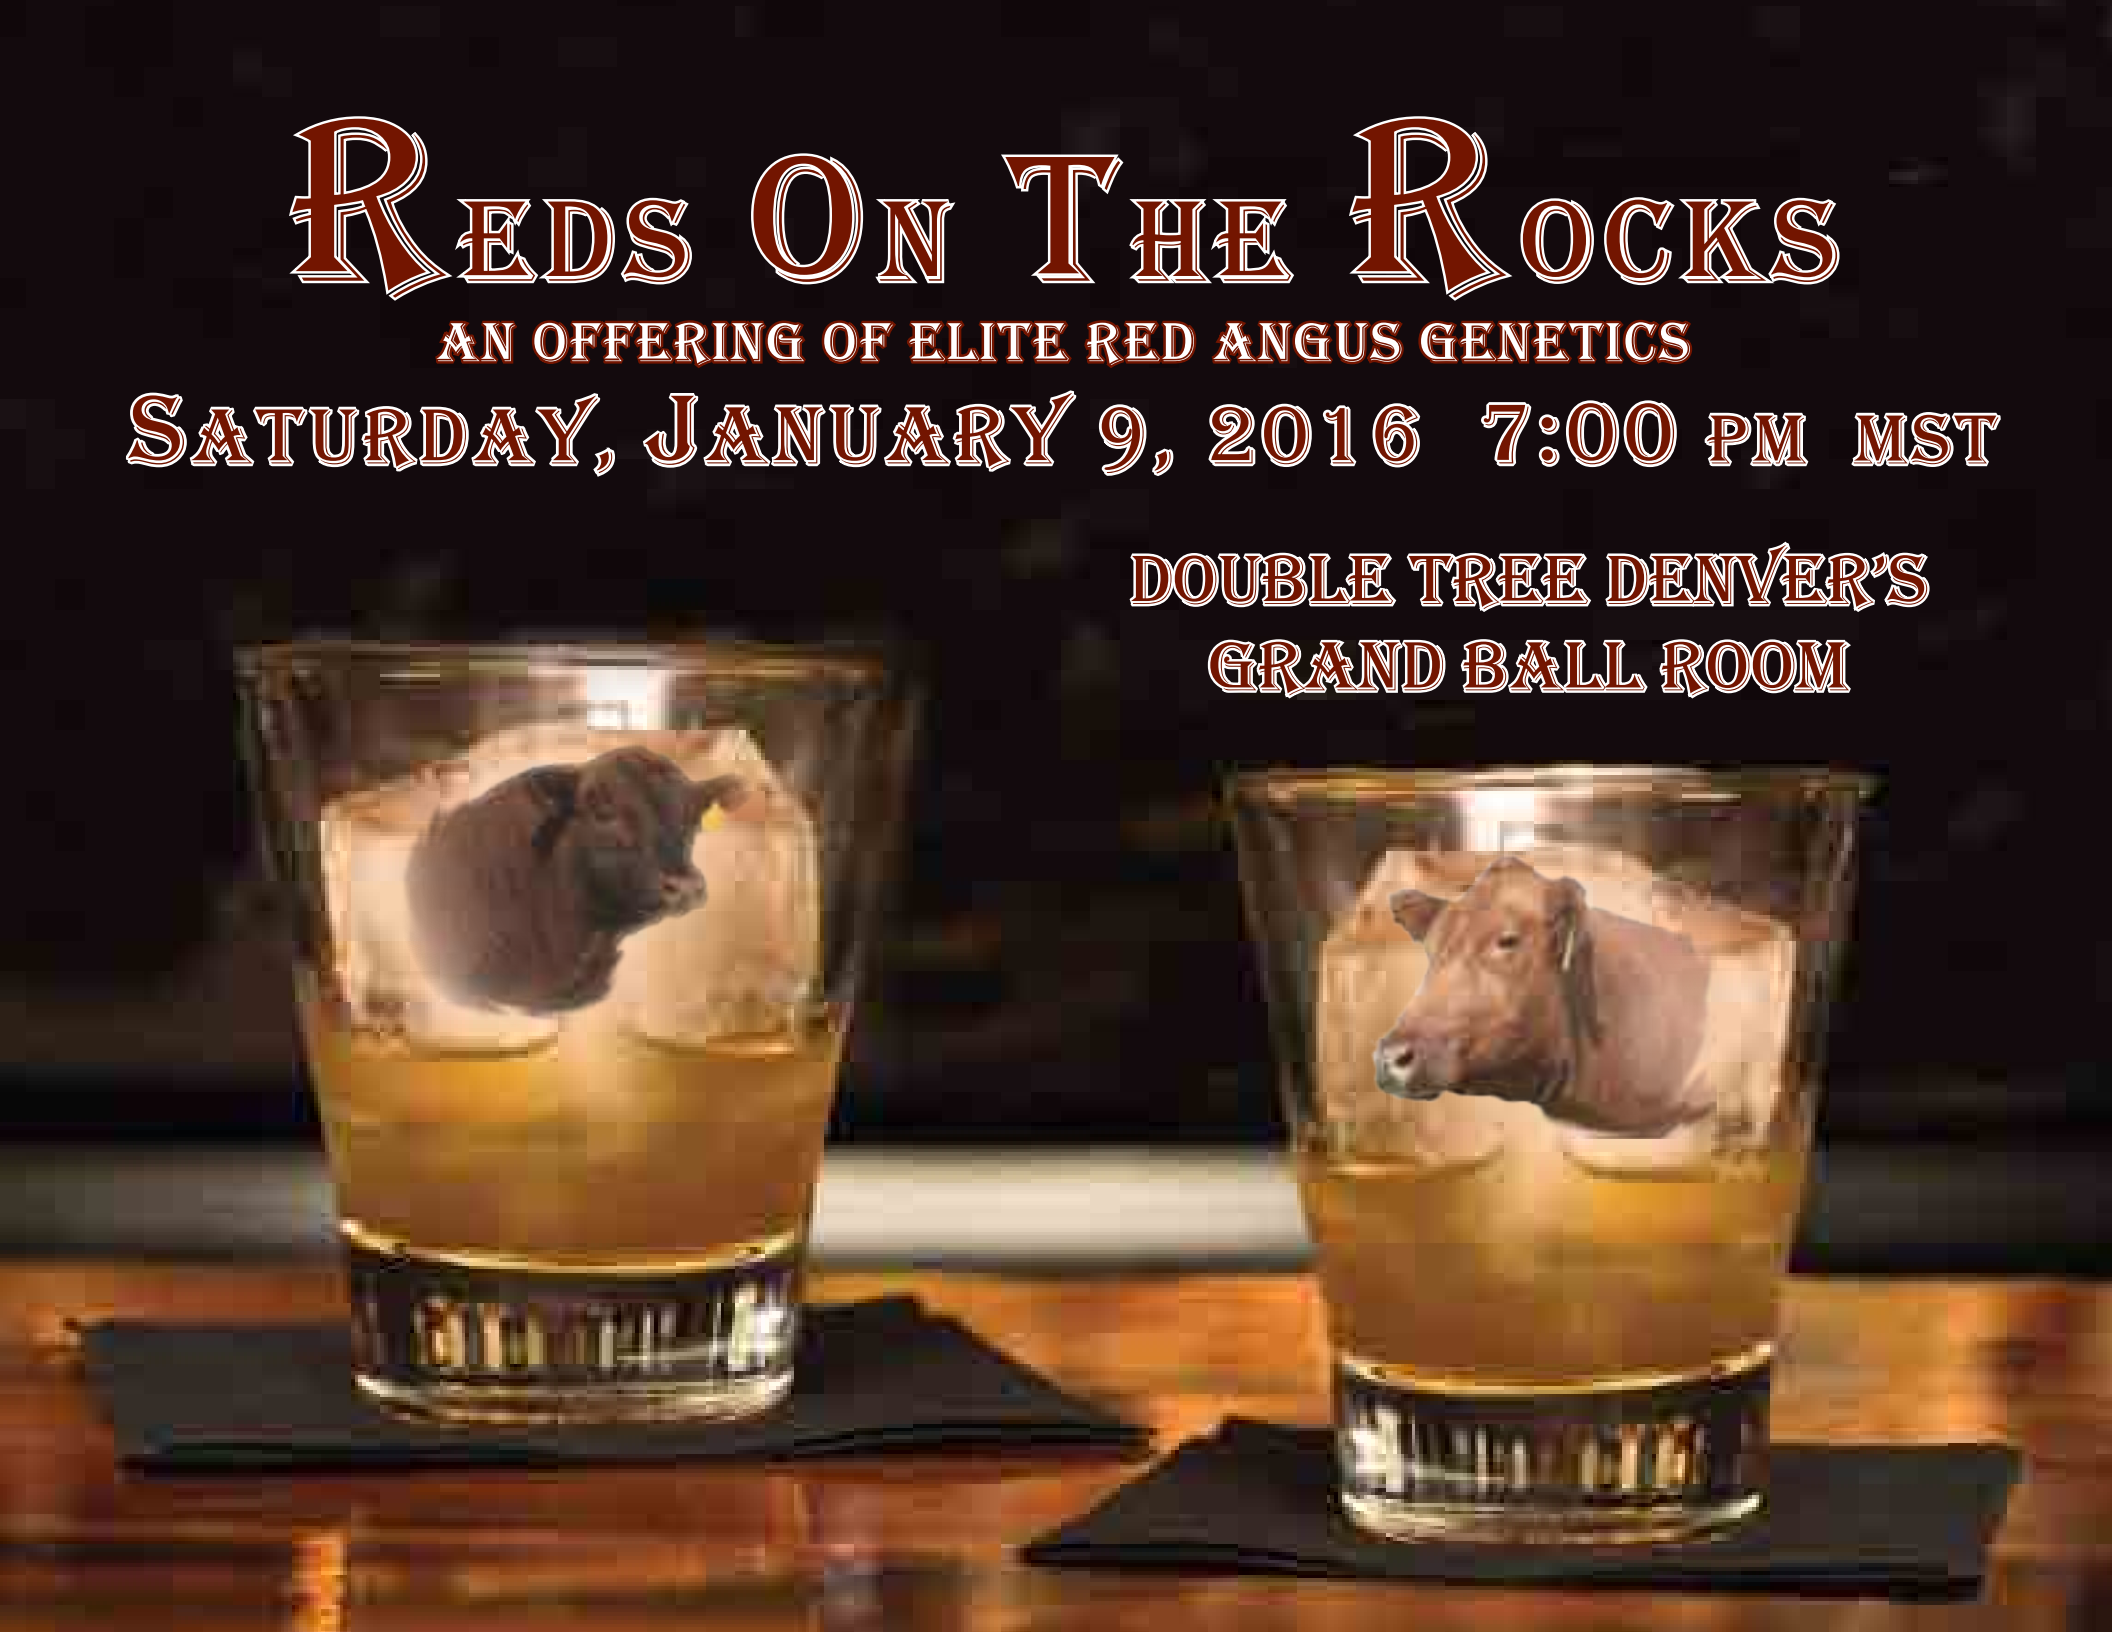
Reds On The Rocks

An Offering of Elite Red Angus Genetics

Saturday, January 9, 2016 7:00 PM MST

Double Tree Denver's
Grand Ball Room



Welcome to the 3rd annual "Reds on the Rocks" sale!

It is with a great deal of pride we present the lots offered within the pages of this catalog. The response from breeders all over the North American continent has been phenomenal to say the least as they have stepped up to offer their most elite genetics in our event. We are humbled to be able to bring the very elite of the Red Angus breed to you for your appraisal.

As we travel around the country it is obvious that the Red Angus cattle are still in high demand and the very elite genetics are more valuable than ever. We believe the frozen genetics and genetic opportunities offered in this event are truly the cream of the crop and there are genetics that will fit any breeders program. Make absolutely no mistake about it there will be genetics offered in this event that have never been offered to the public before and possibly will never be offered again.

If you are looking to add some of the most cutting edge genetics of the breed to your program, please study the lots contained in this catalog to find the genetics that will work for your breeding program. If you have specific questions about any of the lots being offered in this event feel free to call any of the consignors directly or you can also call myself and we will be more than happy to answer any questions you may have.

The sale will be broadcast live on DVAuction for any of you that cannot make it to the sale in person. We also have sale staff available to represent your bids on phones if you are more comfortable doing so. You may also leave an absentee bid with myself or any of the sale staff and as always trust those bids will be held in the strictest of confidences as you have come to expect from us.

Kaye and I would like to invite you to an evening of fun, hospitality and tremendous Red Angus genetic opportunities. We fully expect this to be our best "Reds on the Rocks" event ever. We hope to see you in Denver at the Double Tree!

Sincerely,

Stuart & Kaye Gilbert

Rarely does a bull prove to be a true multi-trait producer. Calving ease, rib shape, muscle expression, sound structure on great feet, bone, hair, udder quality, carcass quality, color, performance, softness, fleshing ability and daughters with mothering ability - all old school traits that need to be at the forefront of the discussion, not the after thought of the post EPD analysis. Endorse is one of those rare bulls who can virtually cover all of these bases at the same time.... and put one in the championship drive, as proven by the reigning 2015 NILE Champion Female.

Pride 43X is a stunning daughter of Red RMJ Redman 1T, and an exemplary donor female at Bullis Creek. She was purchased from the A1 Land and Cattle Dispersal as one of the high sellers at $12,000 and her 6 daughters that sold averaged nearly $7000. 43X is a wide topped, easy keeping female with a perfect udder attachment. She has proven to work tremendously well in transplant averaging 20 good embryos per flush at Bullis Creek.

Red Lazy MC Lookout 153X is an exciting outcross bull with an impressive pedigree. In a short time Lookout 153X has made a large impact on the Red Angus breed producing champions as well as females with excellent udders and mothering ability. He will add style, rib shape and excellent feet and legs. So far Lookout progeny have seen a lot of purple as they have claimed Champion female banners at the San Antonio Jr Livestock Show, Houston Jr. Livestock show, Canadian National Jr. Show as well as many Reserve Champions and Division winners. For cutting edge, consistent genetics that will put you on the front row and in the purple invest in this exciting opportunity now.

Eldorado has been used by some of the breeds top cattlemen and they all agree "Everwhere Eldorado had been used his progeny are the best in those herds!" 114Z will emerge as one of breed's top carcass sires and he has tremendous calving ease built in . His calves really standout and they all have huge tops in them.

Great Granddam Miss Forster Cprtop 591

MATERNAL and LONGEVITY GUARANTEED!!! Indeed 104H X New Trend 22D X Rambo 502 WOW!!! The maternal great granddam is the renowned Miss Forster Cprtop 591, the $50,000 cow that set records back in the late 90's. The maternal grand dam is a full sister to the dam of the 03 National Champion Bull- Ubar Grand Prix 102 and Ubar Sequoia 202. Ubar Ms Forster 438 is a very prolific donor purchased in the 2013 Kick Off Classic from Rich Red Angus and Shepard Settlement Farms. At near 12 years of age 438 posts a 104.6 MPPA, stands on near perfect feet and legs, and has a flawless udder. Indeed 104H's daughters are some of the most coveted females in the entire breed! Indeed has sired several top breeding sons as well, including Timberlake, Mastermind, Integrity, Emphasis, WinChester, and Magic Mike just to name a few. If you want functional, maternal, long lasting cattle with excellent feet and legs and phenomenal udders buy this package!!!

Embryos are stored at Impatiens Embryo Transfer, New Berlin, New York.

Foster's Blockana 846 in 2013

Foster's Blockana 846 in 2015

Blockana 846 is a powerful brood cow with a big hip and a huge top. She has been a solid producer for us since her purchase in the 2011 Kick Off Classic. This mating to the maternal giant New Trend 22D has really hit the mark with a balanced set of EPDs and a little extra frame. Blockana 546 is a full sib to these embryos and is a standout in our replacement heifer pen. Her brother 1546 is the heaviest bull on test right now in our bull pen.

Embryos are stored at Impatiens Embryo Transfer, New Berlin, New York.

Bonita 205T continues to prove her value in the Red Angus breed as astute breeders from around the globe recognize her true genetic value by purchasing her offspring or embryo's. This great Mulberry daughter combined with bulls like One of a Kind, Signature and Cutting Edge will result in some very interesting offspring for the new owners. 205T is no longer in production as she was injured this summer so these mating's are becoming more rare by the day.

We are excited to consign to the 2016 Red's on the Rocks sale and wanted to offer some of our very best genetics for this prestigious event. Rhonda is a donor that we originally tried to purchase from the SooLine Cattle Co. dispersal but Wildcat Creek Ranch was hard to buck off. When she became available through Wildcat's online sale this summer we were excited about the possibility and partnered with our great friends at Rust Mountain View Ranch to make her a part of our donor program. The three matings available here are some of the coolest and freshest in the breed. The $55,000 Bingo, $192,000(valuation) Signature and $40,000 Tommy Jack are all genetics you will want to be very serious about. Put yourself in the drivers seat by adding these breed leading genetics to your program.

Ms Joline Z243 was the $27,000 high selling pick of Jeffries Red Angus bred heifers in Denver last year. Package A is sired by the 5L Independence bull that has garnered so much attention from breeders around the country as a true calving ease sire that makes calves with dimmention and substance. Package B is sired by PIE one of a Kind who is possibly the most complete right Kind son walking and was a sale highlight in the Pieper program in Nebraska. Either package will move the buyers genetic program light years ahead. Joline stacks two of the breed's most productive and prolific cow families with Abigrace on the paternal side and the famed HXC Jolene 301N on the maternal side, also the dam of Jackhammer and a full sibling to the $31,000 HXC Outlaw 4424B bull that topped Hueftle's spring sale to Blair's Ag Cattle Company in Canada.

Jolene S618 is a Major League daughter out of the great HXC Jolene 301N cow. This makes Jolene S618 the Maternal Sister to HXC Jackhammer 8800U, Lazy MC Venom 34Z and Lazy MC RamblinMan 305B just to name a few. Jolene S618 is a proven producer. She is the mother of the A-1 Titan 5141 bull. We have flushed her to 3 of the breeds hottest performance sires, Lazy MC Eye Spy 64Y, Lazy Mc Legacy A-314 and Lazy Mc Trooper 21Y. Take this opportunity to add these powerful genetics to your herd. These embryos will produce offspring that will work in your pasture or on the show road.

Embryos are stored at TransOva Genetics in Centerville,Texas.

2014 Minnesota State Fair Produce of DAM DAMAR Mimi W085

Full Sib to the Embryos
DAMAR Mimi Z388 2014 Grand Champion Female at Iowa State Fair

Let's go racing! If you have been to one of the major shows that Damar Farms has exhibited at, then you have already seen what these embryos will produce. Mimi has already produced a Grand Champion Female for Kip Wallace in both the Iowa State fair and the Minnesota State Fair from this mating. She is the Tarmily cow's best known daughter and she is taking the lead from her mother and already making her own history in not only the Damar herd but the Red Angus breed as well. Look for depth of rib, fleshing ability, style and substance from this mating for sure. Proven genetics at their very best!

Embryos are stored at Midwest Embryo Transfer and are not exportable.

The donor dam of this embryo package has the destinction of being from the Bonnebell cow family that was so successful for Paul Haugen. Her sire is a Copper Rob son and also traces back to the Boot Jack program through the Rocker cow. Red Corner Creek Cash 2R needs no ontroduction to the Red Angus breed and has been used extensively in the Blair Ag program in Canada. DAMAR is well known for having one of the most progressive E T programs in the country, Bonnebell N327 has earned her way into their elite donor pen for good reason.

Embryos are stored at Midwest Embryo Transfer and are not exportable.

Red Wilbar Cora 443P
Dam to WCR Miss Cora MU 3253A

If you are not familiar with the Englewood program, I suggest that you seek them out and get to know them. This is a program that is "on the move" and has absolutely been stacking their program with some of the top genetics available. Their first online sale that was held this fall averaged over $7500 from top to bottom on their heifer calf offering. The donor dams represented here are from the cream of the crop and could certainly anchor many ET programs around the country. The matings that John has made here also represent many of the top AI sires available in the Red Angus breed. The Englewood crew has done a tremendous job bringing us some of the top genetics that they are building their herd around and offering them to us.

LCHMN Grandcanyon 1244G
Sire to Feddes Lakina 310

310 is the dam of Feddes Big Sky R9, who is one of the great all-time female producers in the Red Angus breed, as well as having 10 traits in the top 26% of the breed at 10 years old. These could be the last embryos ever produced by this powerful cow. The last 310 embryos sold brought $1750 each. We are really excited about the New Direction females so far. This is a mating that should leave some great maternal genetics.

Sire 5L Indepence 560-298Y

These embryos sired by the great 5L independence bull and are full sibling to Jacobson Freedom 4056 who sold for $30,000 to Rich Red Angus in Iowa & 3J Farms in Oklahoma. Calving ease, carcass and maternal traits stacked just the way you want them from a proven and successful mating. The daughters from this mating will be absolutely spell binding. The donor dam, Jacobson Heidi 2099, is a young outcross daughter of Basin EXT 1925 out of the famed Seeger Heidi donor cow that has more influence in the Jacobson program than any other matron and is now owned with Sonstegard Cattle Company in MN as well.

Embryos are stored at Gary Knutson in Volga South Dakota.

Patenal Grand Sire LJC Mission Statement P27

Performance and Style -- DKK Auburn P35 is a beautiful, easy fleshing 12 yr old cow with a perfect udder, excellent feet, and a MPPA of 107.44. As you can see, she is backed by many "great" sires of the breed....and yes, she is OSF. Mated to Nexus,the top-selling Red Angus bull in the ORIgen linup for 2014. Known for his power, shape, length, performance and eye-appeal, Nexus has definitely made his mark in the Red Angus breed, both in the show ring and the pastures. This mating has already produced the heifer calf champion at Bet on Red 2014 (P35's natural calf) and the 2015 E.T. bull calves are in contention for the best in Klompien's yearling pen of bulls.

Red Lazy MC Bess 12S

This embryo package is off the top of our newest donor group and our best of 2014 bull calf crop! Red Lazy MC Benelli 102B was a standout at the 2014 summer and fall shows with numerous calf championships and at the side of his powerful dam, Red Lazy MC Firefly 36Z. He was a $36,000 top seller to Semex Beef & AC Red Angus, TX and has developed into an impressive individual. Red Lazy MC Sparkle 56Z is a maternal sister to one of the industries best, Red Lazy MC Detour 2W, and full sister to one our most powerful donors, 2U, which has embryos worldwide! This mating will offer great phenotype with balanced numbers and excellent performance. The maternal strength in this pedigree is something we are very proud of!

Only limited packages of semen have been sold to date. He sired the recent '15 Reserve Grand Champion Bull at the National Red Angus Show in Billings, MT. His progeny have flat been the best calves from Jacobson's in MN, to C-Bar in KS, to Shick's in MT, to Lautenschlager's and Dykes in WA. He is a dual purpose carcass sire, with progeny excelling for Marbling and Ribeye... 101 IMF average and 101 REA average on 68 progeny. He has also been used on heifers with absolutely zero problems... at Shick's he was the low birth weight sire group on his cows and they even weighed less than his lowest sire group on his heifers! Included is a picture of his dam, C-Bar Ms Stony W914, a candidate for the most productive Mulberry daughter in the breed. Eldorado is co-owned with C-Bar Red Angus, KS, Lautenschlager Red Angus, WA, and 5L Red Angus, MT.

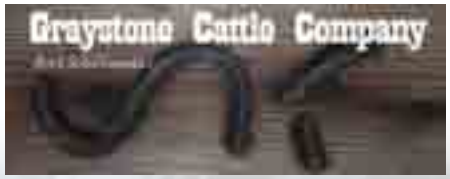
We are very fortunate by the nature of our business to be able to see literally 100's of the most elite Red Angus breeding pieces sell every year. RRA Conquest 124 495 ended a 3 year search for what I believe to be the future of our breeding program. He was our choice of bulls in the 2015 Rich Red Angus production sale meeting all of our criteria. He is the soundest, best moving, big footed, big boned, performance directed bull we have found with acceptable calving ease and he does it in a very eye appealing package. His disposition is second to none. Genetically, he is backed by two of my favorite cow families from the reputation Rich Red Angus herd in Iowa, Rachel 746 and the Miss Excel 409 cows and is also represented through Conquest 4405P and Net Worth 23U. His sire was sold to Blair Ag in Canada as a yearling for $11,500 to top the 2013 Rich Red Angus bull sale. Study the pedigree, performance, phenotype and EPD's of this budding herdsire and I think you will be equally impressed. He is 50K tested and ranks in the top 34% HB, 8% GM, 3% WW, 4% YW, 9% MILK, 8% MARB, 4% CW and 6% REA! He will be in the stalls in Denver for your own visual appraisal, stop and look him over before the sale.



Selling one of five limited semen packages with the buyer receiving 50 units of semen. No other semen will be sold on the open market until January 2017.

Semen stored at Nichols Cryo Genetics, Maxwell, Iowa.

#411482

Darryl started the "Legends of the Breed" semen package a couple of years ago. This year he has once again brought us an optimal chance to gather up some of the breeds leading sires that have already written their own pages in the history book of the Red Angus breed. This offering features in package A 2 units of Chateau 744, 4 units of King Rob 8621, 4 units of Rambler 5162, 3 units of Beckton Lancer T A664, 3 units Rambler 1000 and 4 units of Make My Day for a total of 20 units all for one money! Package B is 3 units Make Mimi 7249, 4 units Rambler 5162, 3 units Rambler 1000, 3 units Jewel Maker N155, 4 unit King Rob and 3 units of Make My Day for a total of 20 units as well.

Year after year Darryl Rhodes brings us some very interesting lots for this sale and it seems like he has to top his entries from the previous year. This is an opportunity to buy breed legends in 10 straw packages of each bull. While I would love to see exactly what Daryl's inventory is, you probably don't want to wait and see if these are the last available units left on the bulls that built the breed.

Semen stored at KABSU, Manhatten, KS. Storage after April 1, 2016 becomes the responsibility of the buyer as well as all shipping charges.

The Ms Brown U7829 cow has been a tremendous donor for us. She is very prolific and we just cannot keep up. We have several of her calves that will join our herd and 3 pregnancies out of this mating, The One of a Kind 352 sire, brought $45,.000 at the 2014 Pieper bull sale. We think the females from this mating will be very special!

Son SLGN Rock Star 069X

This Two-Time National Champion Female caught the attention of everyone in the show arena but was also able to go home and get the job done! This moderate made female is extremely feminine through her front third and offers the depth and dimension that a donor cow should have. Her first natural calf was a 72 lb. heifer which weaned off at 689 lbs. She also produced the $7500 Rock Star bull which sold in the Solution Genetics bull sale as well as the Yardmaster bull that is making his own mark in programs around the country and syndicated for $65,000! And just this year, she produced a heifer calf that fetched $12,000. You have a chance to get a piece of this proven donor! Don't miss it!

Progeny of PIE One of a Kind & Sister to Lora Lee

Progeny of Lora Lee

Every purebred breeder has a cow family that just plain "works" and RMS Lora Lee 1708 is one of those. Being closely related to MNS Sheena 1750 and Daisy 8708 also helps as well. Lora Lee was one of the most eye catching females we had ever exhibited. She was extremely powerful and three-dimensional in her makeup, while providing that extra softness and bone that really set her apart. Pictured in her "working clothes" after weaning her first calf we are very excited about her future potential as a donor in our program. Each of the past three years her natural calf has sold for at least $7500, with the highest being $15,000. She is part of four generations of breeding currently producing functional, stylish, docile, fertile bulls and females in our herd. The mating is to the rare and exclusive PIE One-of-a- Kind. One-of-a-Kind was purchased by Duff Cattle Company off of Pieper's sale for $45,000 and semen is not available at this time. However, we were able to purchase a limited amount at the NAJRAE benefit auction. The calves we have out of PIE One of a Kind are nothing short of outstanding. They are moderate framed, heavy muscled, big boned and deep bodied. This bull will be a breed changer if ever released on the open market, considering the curve bending EPD profile he has to go with an outstanding phenotype .

Ful Sib to the Embryos

SLGN Persuaions Yoninah
2012 Reserve Champion Female

Get your bidder number ready for these embryos! This mating is one that will produce you some outstanding calves that will be able to have the look to compete in the show ring and the performance to produce in the pasture. The dam, Yoninah, was the 2012 Res National Champion Female but her true time to shine started after the show ring. She is a drop dead gorgeous cow who has an almost ideal udder. She stamps her females with her feminine front third and depth of body. Her dam, Meado-West Persuasion, has been doing a tremendous job for us and Jeffries in Oklahoma. She has consistently produced high quality females and bulls that have gone on to become AI sires for many breeders across the country. U2 Mission does not need much of an introduction. His daughters have topped sales across North America and picked some champion banners up along the way. The full sibs that have hit the ground have been dark cherry red and loaded with mass and eye appeal. Don't miss out on this opportunity!

This is the first flush opportunity ever offered on the dam of the great TLC Alaynah 329 female. Alaynah was campaigned successfully by the Lind family winning Champion at both Minnesota State Fair junior shows, Supreme champion all breeds female at the Minnesota Beef Expo, Reserve supreme all breeds at the First Lady Classic at the Canadian Western Agribition and Champion Junior yearling female at Agribition as well . She then went on to be Reserve Female in both the open and junior shows at the National Western Stock Show in 2015. 224X was our show female selection from Tree Lane farms in 2010 who now is a front pasture cow that never misses. Buyer is responsible for all costs associated with the flush and has option of IVF or conventional.

Perfect Storm was tragically lost way too early in his career. He certainly set the Red Angus world on fire when two daughters sold for $27,000 and $10,000 respectively in the 2012 Tree Lane production sale. Another daughter was a feature lot in the 2013 sale selling for $6,500. The Perfect Storm progeny have been extremely competitive at all levels with a heifer being named Res. Heifer calf Champion at the Houston Livestock show. Phenotype with calving ease and performance make the progeny very marketable. With less than 100 units of semen left in storage, chances to get Perfect Storm semen is getting more difficult.

Red SSS Ambus 771X
Son of Red SSS Joe 369S

Donor females with this amount of capacity, width and muscle with a near perfect udder deserve to be flushed. Time has proven the worth of this donor, she has produced two retained daughters, both are "front pasture" kind and a herd bull, Ambush 771X that has only just begun to leave his mark on the industry. The sire Red NCJ Lazy MC Venom 34Z is improving with age and offers a tremendous EPDpackage. His Sire and Dam are two of the most noteable in the breed. Venom's first calves topped sales including the 2014 Select Heifer sale in Texas. Venom gives his offspring muscle, body shape and bone along with the sought after dark red color. This is indeed a rare opportunity for those of us "south of the border". The SSS program has set the world on fire with their offerings in the "Cowgirls" sale and rightully so with females of this quality. The truth of the matter is that it irritates Dave to no end to leave a productive female open to flush. Dig in deep cowboys and be ready to play in one of not only Canada's but the worlds top Red Angus gene pools!

Tommy Jack - 2015 NAJRAE Reserve Champion Bull

Tommy Jack
2015 Ft Worth Stock Show
Grand Champion Bull

182A of a red daughter of the Black Brylor Kodiak 204Y and an SSS Arson 85U female. Black Brylor Kodiak 204Y sold for $37,500 and produced the $57,500 Red Kodiak 3A . Arson 85U is deceased and his semen still commands $200 a straw. She is really stunning, deep red, strong topped, big hipped and smooth fronted. Mackenzie and Gilchrist saw her shortly after she calved and re-marked how sensational her udder quality was and how great she looked. The embryos are sired by Thomas Glascock's Tommy Jack bull that was causing quite a commotion at the Eby Ranch after an interest was purchased by Blairs. Tommy Jack was selected as the 2015 Ft Worth Stock Show Grand Champion Bull as well as the 2015 NAJRAE Reserve Champion Bull. These embryos will be some of the first out of Tommy Jack.

Sale Notes

Thank you for attending & helping us to bring you the 3rd Annual

Reds On The Rocks !!

Terms & Conditions

TERMS: Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle. Buyer hereby grants to Seller/Sale Manager a security interest in the livestock purchased to secure the payment of the purchase price, and Buyer further authorizes Seller/ Sale Manager to file any necessary documents with any Secretary of State or other governmental entity necessary to perfect such security interest.
ANNOUNCMENTS: Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.
BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the Auctioneer and the decision will be final.
PURCHASER'S RISK: All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.
CERTIFICATE OF REGISTRY: A certificate of registry for each animal will be transferred to the buyer at the seller's expense.
FROZEN LOTS: Buyer is to pay for all shipping and handling of embryos and/or semen. Embryos and/or semen will be shipped COD or a separate account established at the storage facility within 30 days of sufficient payment unless other arrangements are made with Sale Manager and/or Seller.
HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipment should be made with the Sale Manager prior to the auction. All efforts for the exportation of cattle can be arranged through the Sale Manager.
BREEDING GUARANTEE: All animals are guaranteed by the seller as outlined in the Suggested Sale Terms of the Red Angus Association of America including but not limited to points 8 and 10.
LIABILITIES: All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the Sale Manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.
CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.
LIVESTOCK INSURANCE: Please tell the sales clerk when you check out if you would like to insure your purchases, and they will record the necessary information. All purchases are the buyer's responsibility as soon as they are sold.
