**W**elcome to our 8th Cowgirls Sale. Our herd has more than 40 years of history in the Red Angus business. We have always strived to be “the program you can depend on.” Please accept our invitation to join us on Oct 27. We will again this year have lunch prior to the sale and a social afterwards. Thank you to all that have supported us in the past, you have showed confidence in our program and that means a great deal. To those of you whom we have yet to meet, we look forward to assisting you in any way that we can.

One of the last things to do is the opening letter for the catalog. Many thoughts have crossed our minds while doing footnotes, pictures and gathering information. Many thoughts and memories come back; remembering the cattle, the people, the industry and how they have influenced the cattle and the family that raises them. Our goal is a simple

one, it has ALWAYS been centered around the cattle that are both sustainable and profitable in our environment. Balancing traits that effect fertility, longevity, adaptability and efficiency, have kept us on this ranch for generations. Our goal has never been to be the best; but to be the best at what we can produce.

You will notice we have not included EPD information in this years catalog. Recently, a number of changes to the way phenotypic and genetic data are combined to calculate EPD's and the systems available to Angus Breeders have led us to this decision. Not all have had a positive impact but the industry continues to move forward and evolve. Today we have available state-of-the-art systems designed to assist breeders in advanced multi-trait selection. These new systems have been a “disruptive force” within the membership fueling the argument of what system to use. Whether the system is right or wrong; right some of the time and wrong in others. This complex conversation will take some time to sort out, but my response is *“the cattle are still the cattle”* – Nothing has changed; if they were the type and kind you liked before, then what has changed??? If the belief is the ability to market cattle has changed due to the new systems, the only advice I can give is that the systems have been changing for 40 plus years and I don't expect them to stop anytime soon. I do not believe

that there will ever be a system developed that will satisfy everyone, nor should there be. Focus on your goals, not everyone else's. It is your choice to raise the cattle or the paper. Together we can make a great breed even better. Today our ranch runs more cows, produces more pounds/acre and grazes more days than ever before. Our herd has seen many variations of advancement in scientific, genomic data and breed development tools designed to help breeders breed and market cattle. We will continue to evolve, utilizing the tools available that assist us in achieving our goals. We encourage you to access the CAA website for up to date information and, for the buyers requesting RAAA EPD information, we will have a supplement sheet sale day with the most up to date current information from the CAA and the RAAA.

We feel that the type of cattle we raise can assist you in moving your herd in the direction to achieve your goals. We would be happy to give you a tour and answer any questions. We are proud of the cattle we raise and humbled and honored that cattlemen from around the world have supported our journey for more than 40 years. We look forward to the future...the best is yet to come.

See you sale day,

*David, Mary Beth and Adam Sibbald*

*Dylan, Karissa and Laina Sibbald*

**SERVICE** A-I May 1 to  
Red SSS Tycoon 225E

**EXPOSED** SSS Outward  
115E May 20-June 28

This North Dakota daughter is the kind we like to raise. Dark red, deep bodied, easy keeping and sound. Her paternal sisters this spring are easy calving, nice uddered productive females that are raising some impressive calves. Erica's mother combines the proven track record of Soldier and Forte into one of the most impressive young cows here at Triple S. Erica is carrying the exclusive service to the \$35,000 Tyson son, Tycoon 225E, that was selected by Y Coulee and W Sunrise. This combination of genetics and phenotype is why we love Red Angus.

# 2

## Red SSS Ruby 119E

DBB 119E FEB 03 2017 BW: **79** ADJ WWT. **670** ADJ YWT. **1140**

SSS RUBY 209U

**SERVICE** A-I May 1 to  
Red SSS Tycoon 225E

**EXPOSED** SSS Outward  
115E May 20-June 28

Ruby exhibits the balance, style and structure desired in a brood cow. These are the first "Big Game 814A" daughters to be offered by Triple S. Big Game is in the same class as Ambush and many other sires where the daughters are calved here at Triple S first before the first public offering. Ruby combines the cow families of 684P (Donor at Wildeat), 369S and 896L (Donors at Triple S), and 561 (Donor at Pieper). My prediction is that this heifer will follow in her illustrious dam's footsteps, a feature donor in the making here at Triple S. Ruby is carrying service to Tycoon 225E, the outstanding calving ease sire from our 2018 spring bull sale.

3

RED SSS DOLL 653T

**SERVICE** A-I April 25 to  
Red SSS Tycoon 225E**EXPOSED** SSS Outward  
115E May 20-June 28

Doll has one thing wrong with her – she is not dark red. Beyond the color of her hide, she may be as good as any of the females in the sale. Length, body and a balanced package with the eye appeal brings Doll to the top of the list. A tour of our pastures this summer speak volumes about how our Contender daughters are doing. It's been a while since a performance sire has influenced udder structure and production like he has. When 4Y and her 2018 heifer calf were spotted by some great friends from South of the 49th this summer, they asked why she hadn't been flushed yet? I guess it is time to...was my reply.

4

RED SSS SCAARA 382Z

**SERVICE** A-I April 29 to  
Red SSS Tycoon 225E**EXPOSED** Red SSS Gamer  
227E May 20-June 28

Scaara is a moderate framed, complete dark red heifer by our calving ease sire, Right Turn. The Scaara family name has topped sales both at home and Red Round-up and produced champion females in the show ring on both sides of the border. Right Turn has been used in Allison Farms, Jansen Farms and Welsh Prairie's respective programs. He is a calving ease sire averaging 77 lbs on bull calves and 73 lbs on heifer calves respectively across these herds with weaning ratios above 100. The resulting calf that Scaara is carrying is a combination of calving ease, balance, style and pedigree not found in Canada very often. Your next heifer bull could be just a few months away.

5

**Red SSS Rose 160E**DBB 160E FEB 08 2017 BW: **72** ADJ WWT. **590** ADJ YWT. **970**

RED CANYON CREEK ROSE

**SERVICE** A-I April 26 to  
Red SSS Tycoon 225E**EXPOSED** SSS Outward  
115E May 20-June 28

The consistency of the North Dakota daughters is reflected by Rose. Another deep bodied, moderate framed, easy keeping female that will be noticed sale day. Her dam, 246B continues to be noticed during tours and inspections. She is a little short on tail but long on quality. The hip, muscle and volume our Ambush daughters present has made them a valuable breeding tool at Triple S. Carrying the service to our next generation calving ease superstar, Tycoon 225E only enhances the ROI on this young female.

6

**Red SSS Pritara 183E**DBB 183E FEB 12 2017 BW: **78** ADJ WWT. **735** ADJ YWT. **1187**

**SERVICE** A-I April 26 to  
Red SSS Tactic 651D**EXPOSED** Red SSS Gamer  
227E May 20-June 28

Here is one powerful female. Her length, growth, muscle and eye appealing pattern make Pritara a top choice. Tyson is new to Canada and was noticed by both purebred and commercial cattlemen at our past spring bull sale, with sons averaging \$12,000. Equally impressive are his females of which 183E is no exception. Her dam, 444Z is the picture perfect Red Angus female: Pattern, depth, an exceptional udder, structure and fleshing ability – the kind that has kept us in the business and will for years to come. She's carrying a special service to Tactic, the \$120,000 bull that has rocketed to the front of our herd bull battery. Count on many good things to come from this mating.

7

115E May 20-June 28

If you wanted to use only one word to describe 207E, I would choose, "Dynamic!" Quite possibly my favorite heifer. Moderate, thick, eye appealing, sound and easy keeping to name a few things that this female brings to the table. We know these Big Game daughters are for real! Many years from now we will still be talking about his influence. To add credibility to the equation, look no further than 621A. She is an exceptional representation of the production capabilities of a moderate framed Red Angus female. She hasn't missed yet and once again has a favorite in the pasture this year. With this kind of female it won't matter the service sire – the result will have impact on your herd for generations.

10

**Red SSS Jessie 228E**DBB 228E FEB 21 2017 BW: **82** ADJ WWT. **629** ADJ YWT. **990**

**SERVICE** A-I April 29 to  
Red SSS Tycoon 225E**EXPOSED** SSS Outward  
115E May 20-June 28

Jessie is another example of the total package that the Big Game daughters bring to the table. She's a moderate framed, smooth made, sound female with the easy fleshing qualities desired by cattlemen. Big Game's dam, 896L has attained her "Elite Dam" status and her impact will be felt for generations. She produced to the age of 15. Her fertility, soundness and production capabilities would stack up against ANY Red Angus female to walk the pastures at Triple S. The genetic value of this young matron should not be overlooked.

# 11 Red SSS Gold Edge 236E

**EXPOSED** Red SSS Gamer  
227E May 20-June 28

This unique daughter of Right Turn balances low birth, growth and maternal as good as any in the sale offering. As her dam's first calf, 528C exhibits the udder quality, soundness and overall body design we strive to produce. Her dam, 778A and granddam, 196R production records exemplify what "power" Red Angus females can do. Raise big calves on grass, breed back and maintain a high body condition score 365 days of the year. Cattle that can look after themselves is what we should all be striving for. Gold Edge females have led our sale offering every year and this young female will surely not disappoint sale day.

# 12 Red SSS Mabel 246E

**EXPOSED** Red SSS Gamer  
227E May 20-June 28

Mabel represents one of the two Max daughters in this year's sale. Max has done more than we had ever imagined for our program. His ability to improve udder quality, foot and leg structure, style, balance and coat color make him a reliable herd bull each and every year. Time is proving the value of his daughters. Consistent, reliable and many are destined to become donors in our ET program. Her dam, 320W is a very moderate easy keeping female that brings in a top indexing calf every year averaging 103 WR on 7 calves. Combine the proven producing capabilities of the Mabel cow family with dynamic genetic worth of Tactic – this should prove to be a worthy investment.

# 13 Red SSS Lady 255E

**EXPOSED** SSS Outward  
115E May 20-June 28

Siera is a long bodied, smooth made, functional female by Contender. She could possibly be the "sleep" of the sale. Her pedigree is full of "elite" dams whose production records speak for themselves. We know the current data systems sometimes leave the tried, tested and true genetics behind. I often wonder what things would really look like without these old bulls that continue to produce the foundation females. Fertility and longevity are two VERY important traits that influence profitability. Here is a pedigree full of females that lasted well into their teens.

# 15

## Red SSS Rose 275E

**RED SSS MINERVA 633A**

RED SSS MINERVA 5M

Here is one dark red sweet little truck! Finding 3 dimensional heifer calves with the extra depth and muscle is not easy. If you haven't heard of red SSS Approval 667D yet, by next spring you will. His first calves are off the chart.....GOOD!

135D May 25-July 8

Waco 719A is a solid working female. Her structure, udder and profile represent the type of female we like raise. Her lineage is strong all the way back to the Tom Hamel foundation herd. Ambush has not made his mark on this herd because of his EPD profile. It is because his daughter's foraging abilities and production capabilities. Check out her production record, she averages way above average on 4 calves to date. She is bred to the outstanding outcross bull from McMillans.

**OWNED BY**  
Twin Willows Farms  
and Triple S Cattle Co.

From the moment Gravity hit the ground he has been a standout here at Triple S. He was the pick of the 2017 born bull calves purchased by Bud Thomas, Twin Willows in MO for \$40,000. An exclusive semen package was sold this past spring at our bull sale to John Vancise, Stayner, ON for \$10,000. Gravity combines many impressive features from his depth of rib, overall soundness, fleshing ability and exceptional growth. His pedigree has been proven many times over here at Triple S with the combination of Soldier and Game On. We calved the first set of his paternal sisters this past spring and are very excited to see these young females as they progress. We are confident that many will be of donor quality in the years to come. Phenotypically Gravity checks all the boxes and we cannot wait to see his first calf crop hit the ground in February.

**OWNED BY** Arrowsmith  
Red Angus, Bassett,  
NE, and Rains Land &  
Cattle, Perkins, OK

Every once in a while a truly special individual enters a program. Tactic is one such individual that possesses that "something special" that will impact a breed. His ability to bring extra top and hip shape while driving in more rib shape is something not readily available in most sires. Our breeding philosophy of combining the best maternal genetics possible by stacking cows families has been our key to success. Tactic's maternal strength initially may have been over shadowed by his performance and muscle traits as we try to achieve the desired balance to produce functional cattle that are profitable for all sectors of the cattle industry. We do appreciate the confidence that Arrowsmith and The Rains programs have put in us and Tactic. A \$120,000 high seller that attracted interest from around the globe.

## Sale Information

### Online Purchasing

We invite those of you who are unable to attend the sale to be part of the action! With the help of Direct Livestock Marketing Services we are now able to give you a live connection to this event. Real time bidding will be available via the internet. Live audio and video will allow buyers to bid on animals as if they were present at the sale. Please find instructions for viewing and bidding at the back of this catalog. To be approved as a bidder or if you have any further questions please e-mail Mark at [mshologan@dlms.ca](mailto:mshologan@dlms.ca) or call 780.699.5082.

### Video Sale

All females will be video'd ahead of the sale. Video clips of the sale lots can be viewed on line at [www.sssredangus.ca](http://www.sssredangus.ca) or [www.cattlevids.ca](http://www.cattlevids.ca). We can alternatively send you a DVD if your internet connection is incapable. The auction will be conducted using large screen video. All females will be penned near by for ease of viewing. Video production by Direct Livestock Marketing Systems (DLMS), Mark Shologan, 780.699.5082 - [www.dlms.ca](http://www.dlms.ca).

### Directions to Sale Barn

Sale to be held at the SSS Red Angus' North Sale Facility. From Calgary head west on the Trans-Canada approximately 40 kms. Take exit 143, Sibbald Creek Trail, take an immediate right at the stop sign onto Township Road 252, go approx 3 kms on the gravel road and take the first right at the bottom of the hill. Watch for the "Cowgirls" sign.

### Terms

Payment due at time of purchase. All cattle sell under the standard terms and conditions of the Canadian Angus Association. EPD's in this catalog are the most recent available at press time. Any announcements made sale day supersede information printed in this catalog.

**OWNERS**  
W Sunrise and  
Y Coulee Land  
and Cattle

Tycoon was the second high selling bull in the 2018 Triple S Bull Sale. He sold to W Sunrise and Y Coulee Land and Cattle for \$35,000. He was also our lead off Tyson son. Tycoon is a dark red, smooth made bull that stands on an excellent foot. Tycoon's pedigree combination of legendary Valentine cow family in 335Z a premier Ambush daughter that is on her way to attaining elite dam status, and the proven LSF SRR Tyson made him an intriguing A-I sire for the 2018 Cowgirls. To say we are excited about his progeny would be an understatement.

#### RED SSS DUCHESS 776X

RED SSS DUCHESS 328S

Outward's story is as interesting as he is.... We purchased a semen interest in his sire along with some well known Canadian Angus Breeders in Denver of 2016. This outstanding young black bull was sired by Hamely and out of one of the most impressive black cows we had ever seen. Fast forward....a lot of things have changed. Not a single red calf born anywhere and a new pedigree and the sire being Barstow Cash! All that aside, we have had our eye on 115E from the start. His dam, 776X is one of our favorite Twitch daughters. We are excited to see this young sire's calves this spring.

#### RED SSS MISS STOCKY 216B

RED WILDMAN MISS STOCKY 001X

After the dust settled from the spring bull sale season we had found ourselves short of heifer bulls to turn out. We did a little "horse trading" with a great bull customer to keep 227E, maybe the coolest phenotype heifer bulls we have ever used. Moderate, thick, correct, big ribbed, wide based, sound and a great disposition. His dam, a result of our ET program, combines Soldier with the legendary Stocky cow family from Wildman Livestock. His service may turn out to be one of the most undervalued things offered.

RED CROWFOOT MOONSHINE 8081U

#### RED SSS PRINCESS 349Z

RED SSS PRINCESS 628X

If you judge a sire by what he can produce, Approval's first calf crop have impressed us so far. Approval is a KEEPER! More dimension, more rib, more muscle than we have seen from a sire in a while. The heifer calves look like mini cows already and the bull calves will certainly be a bull sale feature this coming spring. His dam is by Moonshine. She is a moderate, big volume, sound, great uddered donor female. We are looking forward to the impact Approval will have on our program for years to come.
